

**Dear Ms.Sezi Bernadett,**

On behalf of the Chinese Embassy in Hungary, we would like to introduce you the following.

We noticed that you have involved in some Falun Gong related activities. We have to point out that the joint statement on support for Falun Gong cult is seriously wrong and we deplore and strongly oppose that.

Like many other cults in the world, Falun Gong has the nature of being anti-mankind, anti-science and anti-society. It practices cult leader worship, spreads fallacies, exercises mind control, ruins human lives and endangers society. At the request of all people, the Chinese government has banned the Falun Gong cult in accordance with the law in order to protect human rights and safeguard social stability. This is also a great contribution to the world anti-cult course. At the same time, we must stress that there is no so-called religious persecution in China at all and the Chinese citizens enjoy freedom of religious belief in accordance with law.

Please take a look at the Frequently Asked Questions on the Issue of Falun Gong we've attached to this email. More information is available at <http://www.facts.org.cn/>.

All the best,

-----
