

# The List: All Primetime Series on Television

## Calendar Year 2015

Source: Nielsen, Live+7 data provided by FX Networks Research. 12/29/14-12/27/15. Original telecasts only. Excludes repeats, specials, movies, news, sports, programs with only one telecast, and Spanish language nets. Cable: Mon-Sun, 8-11P. Broadcast: Mon-Sat, 8-11P; Sun 7-11P.  
"<<" denotes below Nielsen minimum reporting standards based on P2+ Total U.S. Rating to the tenth (0.0).

### *Important to Note:*

This list utilizes the TV Guide listing service to denote original telecasts (and exclude repeats and specials), and also line-items original series by the internal coding/titling provided to Nielsen by each network. Thus, if a network creates different "line items" to denote different seasons or different day/time periods of the same series within the calendar year, both entries are listed separately. The following provides examples of separate line items that we counted as one show:

- BET's Being Mary Jane: "BEING MARY JANE S2" and "BEING MARY JANE S3"
- NBC's The Voice: "VOICE" and "VOICE-TUE"
- NBC's The Carmichael Show: "CARMICHAEL SHOW 9P" and "CARMICHAEL SHOW 930"

Again, this is a function of how each network chooses to manage their schedule. Hence, we reference this as a list as opposed to a ranker.

Based on our estimated manual count, the **number of unique series** are:

- **2015** – **1,415** primetime series (1,524 line items listed in the file).
- **2014** – **1,517** primetime series (1,729 line items).
