

Why buy HP Sign and Display Printing Materials?

The HP large format printing system—the complete solution

HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, consistency, performance, durability, and value—with every print.

For detailed information on the HP large format printing materials portfolio and to order, visit HPLFMedia.com

Original HP inks and HP printing materials—system chemistry

Original HP inks and printing materials are designed together to provide image quality, durability, and consistency you can rely on. Reliable results enable increased productivity and reduced costs.

Original HP inks are more than just ink and HP large format printing materials are far more than just paper. It's the chemical makeup of each, together with the carefully engineered interaction between the two, that make exceptional results possible. Image quality and consistency so predictable, it's almost cliché. Print permanence that's measured in generations, not months or years. Breakthrough innovations that give you real alternatives to traditional materials that, by nature, must trade-off quality, durability, even environmental considerations. The unique chemistry between HP inks and HP large format printing materials changes all that—among the broad array of materials offered in the HP large format printing materials portfolio, you can have it all.

Original HP inks and printheads

Original HP printing supplies feature intelligent technology built into the ink cartridges, printheads, and the printer. These critical system components communicate interactively to provide automatic and continuous adjustments that optimize print quality and maximize printhead life. User-replaceable printheads enable easy, low-maintenance printing and can eliminate the downtime and expense of a service call.

Designed with the environment in mind

Many HP sign and display printing materials are recyclable through commonly available recycling programs. And in some cases, HP offers the free, convenient HP Large Format Media take-back program.¹ And the HP Planet Partners program provides easy, convenient return and recycling of many Original HP large format ink cartridges and printheads.²

Unprinted HP Light Fabric is OEKO-TEX® certified according to OEKO-TEX® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production.

REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) is a regulation of the European Union, adopted to improve the protection of human health and the environment from risks that can be posed by chemicals.

The following HP large format printing materials have approved fire certifications. For more information see support.HPLFMedia.com/docs/flame-resistant-materials.

	B1	NFPA	Class A	EN 13501	M1	ISO 5660

HP PVC-free Wall Paper (printed)			●	●	●	
HP PVC-free Durable Smooth Wall Paper			●			

Keep printing materials out of landfill with HP recyclable media eligible for free return and recycling through the HP Large Format Media take-back program.

Odorless indoor wall decorations printed on HP PVC-free Wall Paper and HP PVC-free Durable Smooth Wall Paper with HP Latex Inks are UL GREENGUARD GOLD Certified.

FSC®-certified HP printing materials carry the Forest Stewardship Council® (FSC) Mix label, signifying that these media support the development of responsible forest management worldwide. The wood comes from FSC®-certified well managed forests, company controlled sources, and/or recycled material.

Note: Not all FSC®-certified products are available in all regions.

⁶⁰ Compatible only with the 60-inch (1524-mm) version of the HP DesignJet L25500 Printer series.

- ¹ HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See [HPLFMedia.com/ecosolutions](https://support.HPLFMedia.com/ecosolutions) for details.
- ² Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, and for other consumables not included in the program, consult the Material Safety Data Sheet (MSDS) available at hp.com/go/ecodata to determine appropriate disposal.
- ³ Requires roll-to-roll upgrade kit.
- ⁴ Requires 3-in core adaptor.
- ⁵ This product does not contain substances listed as SVHC (155) per Annex XIV of the EU REACH directive published as of June 16, 2014 in concentrations exceeding 0.1%. To determine the status of SVHC in HP products, see the HP REACH Declaration published hp.com/hpinfo/globalcitizenship/environment/pdf/reachstatement.pdf. Logo source: Copyright European Chemicals Agency.
- ⁶ Unprinted HP Light Fabric is OEKO-TEX® certified according to OEKO-TEX® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production. Tested for emissions of volatile organic compounds and chemical residues such as pesticides, allergy-inducing dyestuffs, or tin-organic compounds.
- ⁷ Purchase of a take-up reel required for compatibility with the HP Latex 210 Printer.
- ⁸ It is necessary to use platen cover (B2W90A).
- ⁹ Compatible with the HP Latex 360 Printer only.
- ¹⁰ BMG trademark license code FSC®-C115319, see fsc.org. HP trademark licence code FSC®-C017543, see fsc.org. Not all FSC®-certified products are available in all regions.
- ¹¹ HP PVC-free Wall Paper and HP PVC-free Durable Smooth Wall Paper printed with HP Latex Inks are UL GREENGUARD GOLD Certified. UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg or greenguard.org.
- ¹² Can be recycled through commonly available recycling programs.
